Independent Auditor's Report on Review of Interim Financial Information

To the Shareholders of TRC Construction Public Company Limited

I have reviewed the accompanying consolidated statement of financial position of TRC Construction Public Company Limited and its subsidiaries as at 31 March 2016, and the related consolidated statements of income, comprehensive income, changes in shareholders' equity, and cash flows for the three-month period then ended, as well as the condensed notes to the consolidated financial statements. I have also reviewed the separate financial information of TRC Construction Public Company Limited for the same period. Management is responsible for the preparation and presentation of this interim financial information in accordance with Thai Accounting Standard 34 Interim Financial Reporting. My responsibility is to express a conclusion on this interim financial information based on my review.

Scope of review

I conducted my review in accordance with Thai Standard on Review Engagements 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Thai Standards on Auditing and consequently does not enable me to obtain assurance that I would become aware of all significant matters that might be identified in an audit. Accordingly, I do not express an audit opinion.

Conclusion

Based on my review, nothing has come to my attention that causes me to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with Thai Accounting Standard 34 *Interim Financial Reporting*.

TRC Construction Public Company Limited and its subsidiaries
Notes to interim financial statements
For the three-month period ended 31 March 2016

1. General information

1.1 Corporate information

TRC Construction Public Company Limited ("the Company") is a public company incorporated and domiciled in Thailand. The Company is principally engaged in construction service and its registered address is No. 8, Soi Sukhapiban 5 Soi 32, Kwang Tha Raeng, Khet Bang Khen, Bangkok.

1.2 Basis for the preparation of interim financial statements

These interim financial statements are prepared in accordance with Thai Accounting Standard 34 (revised 2015) *Interim Financial Reporting*, with the Company choosing to present condensed interim financial statements. However, the Company has presented the statements of financial position, income, comprehensive income, changes in shareholders' equity, and cash flows in the same format as that used for the annual financial statements.

The interim financial statements are intended to provide information additional to that included in the latest annual financial statements. Accordingly, they focus on new activities, events and circumstances so as not to duplicate information previously reported. These interim financial statements should therefore be read in conjunction with the latest annual financial statements.

The interim financial statements in Thai language are the official statutory financial statements of the Company. The interim financial statements in English language have been translated from the Thai language financial statements.

1.3 Basis of consolidation

These consolidated interim financial statements are prepared on the same basis as that applied for the preparation of the consolidated financial statements for the year ended 31 December 2015, with there being no changes in the structure of shareholding in subsidiaries during the current period, except for the dissolution of CR3 and Sahakarn Joint Venture Company Limited, as described in Note 8.

1.4 New accounting standards

During the period, the Company and its subsidiaries have adopted the revised and new financial reporting standards and accounting treatment guidance issued by the Federation of Accounting Professions which become effective for fiscal years beginning on or after 1 January 2016. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards, with most of the changes directed towards revision of wording and terminology, and provision of interpretations and accounting guidance to users of standards. The adoption of these financial reporting standards does not have any significant impact on the Company's and its subsidiaries' financial statements.

1.5 Significant accounting policies

The interim financial statements are prepared using the same accounting policies and methods of computation as were used for the financial statements for the year ended 31 December 2015.

2. Related party transactions

During the periods, the Company and its subsidiaries had significant business transactions with related parties. Such transactions, which are summarised below, arose in the ordinary course of business and were concluded on commercial terms and bases agreed upon between the Company, its subsidiaries and those related parties.

19. Earnings per share

Basic earnings per share is calculated by dividing profit for the period attributable to equity holders of the Company (excluding other comprehensive income) by the weighted average number of ordinary shares in issue during the period, after adjusting the number of ordinary shares in proportion to the change in the number of shares as a result of the distribution of the stock dividend in accordance with the resolutions of the Annual General Meeting of the Company's sharehoders held on 27 April 2016, as discussed in Note 26. Since these changes in share capital incurred after the end of the reporting period but before the financial statements were authorised for issue, the number of ordinary shares of the prior period used for the calculation, as presented for comparative purposes, has been adjusted in proportion to the change in the number of shares, as if the shares comprising such stock dividends had been issued at the beginning of the earliest period reported.

Diluted earnings per share is calculated by dividing profit for the period attributable to equity holders of the Company (excluding other comprehensive income) by the weighted average number of ordinary shares in issue during the period plus the weighted average number of ordinary shares which would need to be issued to convert all dilutive potential ordinary shares into ordinary shares. The calculation assumes that the conversion took place either at the beginning of the period or on the date the potential ordinary shares were issued.

The following table sets forth the computation of basic and diluted earnings per share:

23. Litigations

23.1 On 6 December 2011, a government agency submitted a letter to a bank to seize the bank guarantee for a tender of Baht 20 million that the Company had placed with that bank, since the government agency considered the Company to have been unable to perform in accordance with the tender.

On 29 December 2011, the Company sued that government agency and it associates (the Party) through the Central Administrative Court, seeking an order to the Party to return the bank guarantee and pay damages amounting to Baht 27.5 million plus interest at a rate of 7.5% per annum and the bank guarantee fees, from the date of the lawsuit until settlement is made. The Company believes that the Company is not to blame for its inability to perform in accordance with the tender since a law prohibited construction in accordance with the tender. In addition, the Company submitted a temporary protection request to the Central Administrative Court, to ask the Court to order protection of the bank guarantee until the Court judges this case.

On 20 May 2015, the Central Administrative Court has judged the government agency to return the bank guarantee for a tender, namely the bank guarantee, dated 31 August 2007 in amount of Baht 20 million, provide that the Company and the Bank were jointly and severally liable in amount of Baht 10 million, with interest at a rate of 7.5% per annum from the date of the lawsuit (29 December 2011) until settlement is completed within 60 days since the final judgement. The other suits, has fully dismissed.

On 19 June 2015, the government agency then submitted an appeal to the decision of the Central Administrative Court. On 16 October 2015, the Company had already resolve the appeal. However, with circumspection, the Company recognized provision for contingent liabilities in amount of Baht 20 million in the financial statements as of 31 March 2016 and 31 December 2015.

23.2 On 24 May 2011, a private company (the Party) lodged a civil lawsuit against a subsidiary for breach of an agreement to manufacture goods, claiming damages amounting to Baht 17.5 million, with interest at a rate of 7.5% per annum from the date of the lawsuit until settlement is completed.

On 21 September 2011, the subsidiary provided testimony to the Civil Court, denying the allegations in the lawsuit of the Party and requesting the Court to dismiss the suit and order the Party to pay the subsidiary's billing for work done under the contract, amounting to Baht 10.9 million.

บริบัท สือวร์ซี คอะฮกรัดชั่น จำกัด (มหาชน) TRC C instruction Public Company Limited 🖁 On 21 July 2014, the Civil Court finalised its judgement and ordered the subsidiary to pay damages claimed to the Party at the amount of Baht 11.01 million, with 7.5% interest per annum from the lawsuit date to the final settlement date, and pay Baht 0.1 million of court fee for the Party.

The subsidiary has filed an appeal on judgement of the Civil Court because its subsidiary and the party have entered into a memorandum agreement to terminate subcontract agreement between subsidiary and the Party as a compromise agreement. As a result, the parties agreed to waive benefits. Each party shall responsible for their part without claiming to any liability or joint liability between them and/or interchangeable with third party liability. The plaintiff has waived argument. As a result, the subsidiary and the prosecution agreed to settle the dispute together.

On 8 July 2015, the subsidiary submitted the petition to submit security according to the Civil Court to suspend the execution. And the Civil Court had an order on 21 July 2015 that the subsidiary had already submitted security according to the report of officer, dated on 8 July 2015. Security consisted of the fixed deposit account and the bank statement certificate of Kasikorn Bank in amount of Baht 15.4 million including title deed and certificate of land utilization (N.S. 3), located at Nongkradon Subdistrict, Muang District, Nakorn Sawan Province, totally 7 pieces of land, total 102 rais 9 ngan and 289 square wah as well as certificate of price appraisal of land from Nakorn Sawan Land Office, dated 3 July 2015, totally Baht 3.1 million. The Civil Court has temporarily suspended the execution until the Appeal Court will have an order to the petition of the suspension of execution.

On 20 October 2015, the Appeal Court rendered judgement that "the Appeal Court ruled to reverse the judgement of the Civil Court which disposed of the case and ordered the plaintiff and the defendant to conduct the arbitration proceedings. The Appeal Court held to withdraw the order of execution" and the Bangkok 1 Legal execution office countermanded an ordered of property attachment on 28 October 2015.

On 12 November 2015, the Court ordered the litigant to return the guarantee and to pay the appeal fees amounting to Baht 0.2 million and the cost to abide the event amounting to Baht 0.3 million to the subsidiary.

The litigant filed an appeal with the Supreme Court on 19 November 2015 and the subsidiary filed the rebuttal against the appeal on 28 January 2016. Since the mentioned suit is not yet finalised. The subsidiary believed that the subsidiary's the fact and the matter of law can defend against the Party. Therefore, the subsidiary has not yet recognised provision for contingent liabilities in its book of account.

23.3 On 4 December 2007, a subsidiary lodged a lawsuit with the Central Administrative Court against a government agency (the Party), requesting an order for the Party to settle the Baht 7.7 million that the Party advanced to the subsidiary to perform work under the agreement against damages of Baht 13.4 million, and to pay the subsidiary damages of Baht 6.1 million with interest at a rate of 7.5% per annum, from the date of the lawsuit until settlement is completed. However, the Party submitted its testimony to the Central Administrative Court on 20 August 2008, noting that the damages claimed exceeded actual damage, and that the third claim compensation report, dated 16 July 2008, noted that the board of the Party had approved payment of claims to the subsidiary amounting to Baht 0.8 million, and the subsidiary thus returned an amount of Baht 6.8 million to the Party.

Facts of the case between the subsidiary and the Party have been amended a number of times.

On 20 April 2010, the Party submitted its latest testimony to the Central Administrative Court regarding the bank guarantee fee for the advance payment amounting to Baht 0.1 million, and petitioned the Court to dismiss the lawsuit and order the subsidiary to pay the Baht 7.7 million that the Party advanced to the subsidiary to perform work under the agreement.

On 24 January 2012, the subsidiary lodged its latest amended lawsuit with the Central Administrative Court, petitioning the Court to order the Party to settle the Baht 7.7 million that the Party advanced to the subsidiary against damages of Baht 19.4 million, and to pay the subsidiary damages of Baht 12.5 million, together with interest at a rate of 7.5% per annum calculated from the date of the lawsuit until settlement is completed.

In response, the Party lodged a statement of opposition to the lawsuit brought by the subsidiary and petitioned the Court to dismiss the suit and order the subsidiary to return the advance.

Ed Ed Tal Care บริเว็พ ชื่อ วร์ซี แอนเสตรัคชั่น จำกัด (มหาชอ) TRC Construction Public Company Limited On 31 July 2012, the Central Administrative Court rendered its judgement, whereby the subsidiary is to receive Baht 3.3 million and return an amount of Baht 4.4 million to the Party. The subsidiary appealed the court's decision to the Supreme Administrative Court on 29 August 2012.

Because the case is not yet finalised, the subsidiary has not yet recorded the transactions in the financial statements.

23.4 On 24 April 2008, a private company and its associates (the Party) lodged the Administrative Court of Instance against the Company and its associates for its infringed, claiming damages amounting to Baht 6 million, with interest at a rate of 7.5% per annum from the date of the lawsuit until settlement is completed.

On 29 May 2012, the Administrative Court of Instance rendered its judgement to dismiss the suit. But on 20 June 2013, the Party submitted an appeal of the decision with the Supreme Administrative Court. On 9 August 2013, the Company summitted its testimony against the appeal and petitioned the Court to dismiss the suit.

The case is still being considered by the Supreme Administrative Court. The Company's management believes that there will be no significant losses to the Company as a result of this litigation and so the Company did not set aside provision for contingent liabilities in its books of account.

23.5 On 14 September 2015, the plaintiff (the party) filed a lawsuit against a government unit and 8 co-defendants. The Company is sued as the fifth defendant under the Administrative Court for the damages for loss of income amounting to Baht 87.49 million. The case has not yet been considered by the Administrative Court and the Company had already filing the rebuttal against the cancellation of court fee of the party on 11 March 2016. However, the Company's management believes that there will be no significant losses to the Company as a result of this litigation and so the Company did not set aside provision for contingent liabilities in its books of account.
